# Halloween

Free

## *Boo-tiful Crafts*

Decorate with handmade crafts for a truly spooktacular Halloween! FloraCraft® makes it quick, easy and inexpensive with our STYROFOAM™ brand foam. STYROFOAM\* comes in an uncanny variety of shapes and sizes. It's almost scary how many ways there are to cut, cover and finish it. You'll find some of our favorite Halloween craft ideas in these pages. Just add your own creative touches to make them truly one of a kind!

## *Eerie Eyeballs*

What an eyeful! We decorated balls and eggs of STYROFOAM\* with fabric paint, then heated plastic wrap over them to achieve a high-gloss look. (Cut balls and eggs in half, then glue the two pieces together for double eyes.) Opposite page: Wrap gauze and feather boas around cones of STYROFOAM\* for ghostly good tablescapes.

## *Monster Mash*

Put your mad scientist skills to work! “Grow” a man-eating plant by placing a ball of STYROFOAM\* inside a decorative take-out container. Push a dowel into the ball base and attach another ball of STYROFOAM\* to the top of the dowel. We embellished our plants with silk flowers, leaves, googly eyes and chenille stems – but you can use any materials you like.

Want to create a monster? Start with Frankenstein: Cover a foam cube with green construction paper and top it off with felt “hair.” Cut foam eggs in half for ears and small balls in half for eyelids. Glue them and a nose ball to the papered cube. Use fabric paint to add some character to the face and attach two bolts for authenticity. Get creative to craft Dracula, the Wolfman and other movie monsters!

## *Furry Friends*

We've glued furry yarns and googly eyes to balls of STYROFOAM\* for an awww-ful sight. You can place a whole bunch of them in a bowl for a silly centerpiece. Want to add some height to your Halloween display? Wrap and glue feather boas around cones of STYROFOAM\*, then finish them off with ribbon and googly eyes.

# Creepy Critters

Use a FloraCraft® StyroCutter® to cut animal shapes out of a sheet of STYROFOAM®, then paint them black and add a touch of glitter. A dowel, some feathers and an inverted flowerpot complete this eerily easy display.

## *Tangled Webs*

Trace a web onto a foam sheet and cut it out with a StyroCutter® Plus, which works best for these intricate patterns. Spray-paint the web your desired color. Want a bigger web? Just glue sheets of STYROFOAM\* together!

## *Best Witches*

Draw up your own haunted house plans and trace them onto a sheet of STYROFOAM\*. A StyroCutter® Plus will enable you to achieve frighteningly fine details – windows, turrets, ghostly figures, you name it. Add other cutout shapes – witches, pumpkins, goblins and more – to create a weird and wonderful wallscape!

## *Too Sweet to Eat*

We created this candy corn family using various-sized cones of STYROFOAM\*. A FloraCraft® Foam Cutter enabled us to shape cones to look more like candy corn, with flat fronts and backs. (We reserved the scraps to create the cat, dog and feet.) Tip: Coat cones with modeling paste or gesso before painting.

# Wacky Walls

Cast a spell over your household with some eye-catching wall art. It can be as easy as covering sheets of STYROFOAM\* with Halloween-themed dishtowels – just pin and glue the fabric to the back. Then add some bewitching bric-a-brac, “ghost” cards and “fang” mail. SYTROFOAM\* is a blank canvas – make it your own!

## *Scary Scenes*

FloraCraft's Make It: Fun® Project Bricks – Haunted Edition is a boxed collection of black “bricks” of STYROFOAM\* and chenille stems. Bricks can be cut to any size and manipulated into different shapes to build a variety of three-dimensional Halloween playgrounds, including this haunted mansion and graveyard. Use chenille stems to adorn your creations with “iron” gates and fences. Glue and craft sticks keep your design intact, and you can add spooky touches like cobwebs, trees and character figures.

**Make It Fun** this Halloween with STYROFOAM\* brand foam and crafting tips from Floracraft®. Be sure to visit [www.makeitfuncrafts.com](http://www.makeitfuncrafts.com) for more money-saving, creativity-boosting craft projects – for this season, and every season!
