Awesome Autumn Crafts

Give thanks this harvest season with handmade crafts. FloraCraft® makes it quick, easy and inexpensive with STYROFOAM* brand foam and our Straw products. You'll find a bundle of great craft ideas in this book to decorate your home with the color-changing season. Just add your own creative touches to make them naturally one of a kind.

Cornucopia Collage

We decorated balls and cones of STYROFOAM* with mini-dried corn, beans, acorns, pine cones, seeds and other harvest materials using a low-temp glue. An assortment of color and texture creates an attractive, natural centerpiece. Embellish your creations with raffia or jute for a finished look.

Fabulous Foliage

Bring fall's bursts of color inside with these fallen-leaf inspired ideas. Simply wrap various sized cones of STYROFOAM* with silk foliage garlands, raffia or straw. Use floral pins or low-temp glue to hold garlands in place. We covered a 5" cube of STYROFOAM* with fall-themed paper napkins, scrapbook papers and ribbon to create a festive stand that added height to our display.

Bales of Beauty

FloraCraft's sun-bleached straw brings a natural feeling to any occasion or season with its rich, golden color and it's perfect for harvest decorating. You can dress up a simple bale using permanent or dried floral arrangements and ribbon, or leave unembellished for an organic look.

Orange October

Add a splash of color to your table with this autumn floral inspiration. Glue a 3" ball of STYROFOAM* to the inside rim of a clay pot. Press the stems of silk flowers into the ball to cover and add a single row of leaves underneath for authenticity. Secure the stems using low-temp glue.

Harvest Happenings

Accessorize your harvest-style décor with this easy cube idea. We wrapped (like a present) 3" cubes of STYROFOAM* with coordinating fabrics and used natural jute to tie bows around each block, adding character. We then glued painted, wood letters to the front of each block, spelling out the word "HARVEST".

Autumn Welcome

Spruce up your front porch in natural style using FloraCraft's straw products. With various bale, heart, wreath and swag sizes available, the decorating possibilities are endless. You'll find our straw bales in a variety of sizes from 2 1/2" to our largest 24" bale. Attach three wreaths together, like we did, using floral wire and embellish with floral garland for a festive front door statement. The best part is all of our straw products are reusable and organic – at the end of the season, you can mulch them into your garden or flower beds for healthier soil in the spring.

Make It Fun this harvest season with STYROFOAM* brand foam and crafting tips from Floracraft®. Be sure to visit www.makeituncrafts.com for more money-saving, creativity-boosting craft projects – for this season, and every season!
