## *Holiday Magic in Full Bloom*

Make the holidays even more festive with new decorating ideas using foam from Floracraft®. Just apply your own creativity to the designs shown in this book to quickly and affordably spread holiday cheer to every room in your home.

Start by adorning a foam ring with your choice of seasonal florals and finery to create a warm, welcoming wreath. It'll set the tone for the rest of your holiday home décor!

## *Tracks in the Snow*

All aboard for a magical trip to the North Pole! We assembled this candylicious holiday train using foam sheets and balls, plus a foam cube and cone. A foam wreath, cut in half and glued together, becomes a festive base for the lollipop display. Glitter-covered evergreens, cut from foam sheets, are anchored in foam blocks and cleverly camouflaged by heaps of tasty treats.

## *Merry and Bright*

Flexible, bendable, decorative mesh is tucked into foam balls to create the fun, fluffy “poofs” atop these clear glass vases filled with foam snow. Adorn the poofs with ribbon and shiny ornaments and you’ve created a dazzling mantel arrangement or tabletop centerpiece.

## *It's a Wrap!*

Good things come in bright packages! Cover foam cubes of varying sizes in colorful fabric and tie them up with coordinating ribbons decorated with glittery ornaments and baubles. Use one of the packages as a base for a simple tree made from a painted branch. Trim your tree to make it a beautiful centerpiece.

## *Winter Wonderland*

All is calm and bright with this soothing silver and white tabletop display. Evergreen boughs and mistletoe accent the hanging foam ball, simply but dramatically ornamented with silver picks, ribbons and star garland. We added height with a sculptural snowman of two foam rings glued together and mounted on a foam block. Accent with shimmering fruit picks, pine cones, silver accents and greenery of your choice to complete your winter wonderland.

## *Enchanted Forest*

Set the scene for a magical season with a wintry landscape of flora and fauna. Decorate varying heights of foam cones with your choice of colors and frills — we chose a natural approach with icy whites, winter greens, painted fruits and berries, and more. The reindeer were created from individual pieces traced onto a foam sheet and adorned with collars of silver ribbon and jingle bells.

## *Dreaming of a White Christmas*

Handcraft a decorative mesh wreath as fluffy and white as a fresh snowfall with just a few affordable and easy-to-use materials. Tuck the mesh into a foam wreath and add silver berries and fruits along with silk greenery and foil star accents to complete the look.

## *Glad Tidings*

Express the spirit of the season with colorful wall décor! It's as easy as covering foam sheets with Snow-Tex™. We took it a step further by pressing words into foam discs using our scribe tool then covering with glitter and tucking in ornaments, painted sticks and silk florals. Satin and candy-striped ribbons serve as decorative hangers.

## *All the Trimmings*

Make your table merry with a glowing centerpiece. All you need is a foam ring, a few ornaments, beaded holiday picks and a matching ribbon — it's easy, inexpensive, and oh-so-festive! For larger spaces, try an everlasting floral arrangement. We wrapped a foam cube in red paper, trimmed it with a patterned ribbon and created an abundant bouquet of silk amaryllis, bright berries and green accents.

# Home for the Holidays

Open the door to a memorable holiday season by welcoming friends and family with festive, imaginative holiday decorations. Simple, affordable, handcrafted projects express your personality and spread good cheer the whole season long! Make it Fun® this Holiday season with crafting tips and foam from FloraCraft®.
